

POLICY STATEMENT

We are committed to managing energy resources responsibly, efficiently and sustainably. We are committed to continually improving our energy management performance by conforming with statutory and voluntary compliance obligations.

We believe that optimising energy use leads to cost savings, environmental sustainability, regulatory compliance and enhanced overall business performance.

OBJECTIVES OF THE POLICY:

1. To promote renewable energy sources, improve energy efficiency and reduce greenhouse gas emissions to mitigate the environmental impact of energy production and consumption;
2. To encourage sustainable practices, ensuring that energy resources are used efficiently and with minimal impact on the environment; and
3. To diversify energy sources, reduce reliance on specific fuels and ensure resilience to potential disruptions.

SCOPE OF THE POLICY

This policy applies to all areas, processes, activities and functions of SIRIM.

OUR COMMITMENT:

1. We strive to improve energy efficiency across all our operations by identifying opportunities for energy conservation, implementing energy-saving technologies and optimising energy use in our processes;
2. We comply with all applicable legal requirements and standards which SIRIM subscribes to in relation to efficiency, use and consumption of energy;
3. We embrace a culture of continual improvement in energy performance and to always strive to reduce energy usage where possible, by consistently monitoring, measuring and evaluating our energy consumption patterns to identify areas for enhancement and set targets for ongoing improvement;
4. We provide information and necessary resources to review and ensure we achieve the objectives and targets;
5. We consider energy efficiency during the specification and procurement of energy-using products, equipment and services; and
6. We consider energy performance improvement opportunities in the design of new, modified, and renovated facilities, systems and energy-using processes where there is a significant impact on energy performance.

SIRIM reserves the right to review and revise the policy for its continued suitability and when deemed necessary.

By Order of,

NIK SAZALBIN NIK HUSSIN
Acting President and Group Chief Executive Officer
SIRIM Berhad
